

***INDIAN ORDNANCE AND
ORDNANCE EQUIPMENT FACTORIES***

**SYLLABUS OF WORK ORDERS
(PART-I)**

**Issued under the authority of
The Principal Controller of Accounts (Factories) Kolkata
2016**

FOREWORD

Owing to numerous changes in technique, classification and control of overhead accounting in Ordnance Factories over the years and also taking into consideration the revision of the Office Manual Pt-VI in the year 2014, the organisation of PCA(Fys) felt the necessity to revise the Syllabus of Work Orders Pt-I, 1997.

2. Accordingly, in order to carry out such revision in an efficient and comprehensive manner, a committee comprising the following officers was constituted:

- I. Dr. Ajay Kumar Pradyot, IDAS, CFA(Fys), Dehradun Gr of Fys. - CHAIRMAN
- ii. Shri Avra Ghosh, IDAS, Addl C. of. A(Fys), OFB - MEMBER
- III. Shri Balaram Kumar, IDAS, Jt. C of F & A(Fys), AO, OF Dehradun - MEMBER
- IV. Shri D. P. Bhattacharya, IOFS, Director/P&P, OFB - MEMBER
- V. Shri Nirmalya Majumdar, SO, OFB - MEMBER
- VI. Shri Anil Rawat, Sr. AO, AO, OF Muradnagar - MEMBER
- VII. Shri Kamal Das, AAO, AO, OF Dehradun - MEMBER

3. The above committee through its untiring and relentless efforts has examined all the technical aspects with reference to changed procedures, rules, regulations etc. on overheads and also taking into account the changes in technology submitted recommendations for the revision of the Syllabus of Work Order.

4. The office of the PCA(Fys) expresses its deep gratitude to the team of officers for undertaking the efforts in revision of the Syllabus of Work Orders which is a detailed guideline and ready reckoner for appropriate collection, identification, classification and allocation/apportionment of overheads. In addition to accounting issues, it is felt that this Syllabus of Work Orders will also be a helpful tool for the Ordnance Factory Management and the Branch Accounts Offices for proper budgeting of Overheads and fixing of the rate of Overheads.

(M.C. CHAKRABORTTY)

Controller of Accounts(Factories)

PREFACE

1. This publication which is referred to as Syllabus of Work Orders Part-I, Indian Ordnance and Ordnance Equipment Factories, is a compendium of identification codes used in Cost Accounting operated by PCA (Fys), Branch Accounts Offices and Factory management and relates to:

- i. Overhead Expenditure - both Fixed and Variable with prefix as '01' and '02' respectively.
- ii. Expenditure relating to certain operations/jobs/ services common to more than one Factory for processes and production of intermediate components, which are transferred to the outturn work orders.
- iii. Expenditure related to the maintenance of capital assets which are transferred to the main outturn work orders.

It also contains instructions and guidelines to Administrative and accounting authorities for correct identification and classification of expenditure. The second Part of the Syllabus of Work Orders which is issued by the General Managers of the respective Factories under the series listed in Part-II, identifies the customers and indentors for whom the stores are manufactured.

2. The Syllabus of Work Orders was published last in 1997. This revision of Syllabus of Work Orders has been undertaken for making provisions for booking of cost due to various changes that have taken place over the years in the Ordnance Factories Organization after 1997. This revised Edition also marks a distinct change in the existing classification of indirect work orders due to implementation of various recommendations based on expert studies conducted for simplifying and streamlining accounting information. The major changes in so far as they relate to accounting of overhead expenditure includes

- i. The number of work orders under which overhead expenditure (01 & 02 series) is compiled has increased from 80 to 89.
- ii. Re-arrangement of overhead expenditure between fixed and variable by transfer of expenditure previously classified as 'Variable' to 'Fixed' and vice versa. Accordingly, the

existing work orders have been reconstituted in to 71 under fixed overhead and 18 under variable overhead.

- i. A number of redundant series of work orders have been deleted both in part I & II.
 - ii. The 03 series (Process Material) of work order containing 480 work orders has been deleted and replaced by 11 new series (20 to 30) based on generic processes and the General Managers have been authorized to open work orders under these series.
 - iii. The 04 Series (Capital Services) containing 19 work orders has been reduced to 7 work orders.
 - iv. The 05 Series (Repairs and conversion), 06 series (Cost of packing) and 08 series (Conversion of timber) have been deleted.
3. The Syllabus of Work Orders has been amended keeping in view the futuristic evolvement of the Ordnance Factory set up while also making it simple and easy to read.
4. Taking cognizance of the above facts and the series of amendments issued from time to time in respect of other series of Work Orders, this revised edition of Syllabus of Work Orders (Part-I) is published. This comes in to effect from 1st April 2016.
5. In order to help smooth switch over to the new work order series in respect of fixed and variable overhead & others, a Concordance Table showing work order by work order where the provisions of old Syllabus of Work Orders (Part-I) have been incorporated in this edition.
6. It is essential that all labour and material be charged and credited strictly in accordance with the appropriate instructions contained in this book.
7. This publication supersedes the previous publication of 1997 as amended from time to time.

SYLLABUS OF WORK ORDERS

CHAPTER-I

GENERAL INSTRUCTIONS

1. Work order is the numerical code number assigned to each kind of expenditure incurred or work undertaken in a factory. The syllabus consists of several Sections arranged in accordance with the nature of expenditure incurred in the Ordnance and Ordnance Equipment Factories. Each Section is indicated by a separate work order serial.

All work orders have been numbered in nine digits designated to convey the following information:

i) The first two digits denote the main work order serial;

ii) The next five digits denote the main work order number;

iii) In serials 01 & 02, the third digit (i.e. first digit of main number) should invariably be zero, changes, if any, may be undertaken in consultation with PR Section, PCA(Fys), Kolkata;

iv) In Work Order serials 01 and 02, the fifth digit (i.e. third digit of main number) indicates whether the amount booked as a debit or a credit. '0' in the third digit of the main number denotes debit and '1' credit;

v) The last two digits denote sub-numbers. In the cases of work orders pertaining to indirect expenditure, whether fixed or variable (i.e. serials 01 and 02) these two digits will only be used to indicate the Section for which the expenditure is incurred; where a Section incurs expenditure for itself, that Section's number will be shown.

2. Expenditure compiled under labour, Material or other expenses and chargeable to these work orders should have the sanction of the competent authorities as provided in regulations, Govt. orders and instructions issued by the O.F. Board, Kolkata from time to time.

3. The financial powers are to be exercised as per various orders issued from time to time.

4. Work Orders and Warrant numbers, and when necessary, the Section numbers should always be quoted in Labour Records, Demand and Return Notes, Transfer vouchers etc.

5. When material drawn on one order is used for another, a Transfer Voucher should at once be forwarded to the Accounts Office quoting the work orders effected and giving the number, description and weight of material, labour (if any) expended thereon and the reasons for the transfer.

6. Unutilised Material should be sent back to Store with a Return Note showing the warrant and work order on which originally drawn.
7. All labour and material expended, tools, stores for shop use, will be charged to the Foundry and Rolling Mill Orders. The warrant and outturn orders for which the Castings or Steel have been produced must be quoted in the Foundry and Bar Mill Statements.
8. General and Standard Tools, Gauges, Jigs and patterns, demanded, manufactured or repaired not meant for any specific outturn order will be booked to work order 02/00008/00.
9. The Tools, Gauges etc. which are peculiar to a particular outturn will be demanded, manufactured or repaired on special tool warrants under the particular outturn order. The expenditure on these special tool warrants will be charged to production and semi-manufacture in proportion to the finished and part finished expenditure on the outturn orders concerned.
10. In the factories working on the 'Except' system, components will be manufactured on the 'Except' orders provided for them. The number expended in assembly or in repairs or conversions will be drawn on 'Red Demand Notes' and their cost will be transferred to the assembly, repair or conversion work order concerned. Components issued as a 'Spare' should be issued direct from manufacture on the component order.
11. Miscellaneous equipment, office furniture, articles for shop use, any tools, gauges, jigs and patterns of an expensive and permanent character should be accounted for in an inventory list.
12. The Work Orders for other classes of expenditure as noted below will be opened separately by each Factory as required. It must be ensured that the numbers allotted must in all cases run into 9 digits—2 for the work order serial, 5 for the main number and 2 for the sub-number. The necessary number of zeros will be prefixed where required to make up the total number of digits. The first two digits will invariably be as indicated against each type of order below.
 - i. Departmental Material Orders: The Distinguishing code for such orders will be that the first two digits i.e. in the position of Work order serial number will always be 10. These orders are intended to cover the cases in which it is more economical to requirements for stock to meet probable requirements than to manufacture the requirements of each outturn order separately. The outturn on orders for departmental material will, therefore, be sent to Stores and requirements for subsequent use in manufacture will be demanded from stores to the outturn order concerned, while issues outside the Factory without further expenditure will be made direct from stock to the consignee.

When, however, required for issue in satisfaction of extracts, the material will be drawn to the outturn orders concerned and issued on 'P' vouchers.

- ii. Manufacture of standard packages at Ammunition Factory, Kirkee: The first two digits to denote the work order serial will now on be 10 instead of 12.
 - iii. Central component stores at Gun Carriage Factory, Jabalpur: No.10 instead of 13 as the first two digits will denote the work order serial.
 - iv. Outturn orders: The first two digits representing the work order serial will be 70, 80, 90 etc.
 - v. Process work orders: Serial 20-30 will denote the generic processes under which specific work orders may be issued for production
 - vi. Other special services will be identified by fixed numbers under work order serials or special warrant numbers, as and when required, under instructions from the PR Section, PCA(Fys), Kolkata.
13. Warrant constitutes the authority of the factory management to the Shops concerned for putting the work in hand. Manufacture and Material Warrants are issued by the planning section to the production shops. Standard Estimates are drawn up in Ordnance Factories for Labour and Material. The warrants reflect the estimates and the quantity. The "Standard Estimates" are allotted numbers as per local requirement. Warrants are allotted five digit numbers. The last digit is utilized for indicating type of expenditure viz. tool expenditure, replacements etc. System of numbering is left to the requirement of each individual factory.
14. Detailed instructions regarding coding of work order will be issued by Main Office, Principal Controller of Accounts (Factories), Kolkata as and when required.

Syllabus of Work order

Part – I

Work Order Code Serial No	Details of Service
01	Fixed Charges
02	Variable Charges
04	Capital Services

Part – II

Work Order Code Serial No	Details of Service
10	Manufacture for Stock of Articles / Components/Cuttings etc
20	Iron & Steel making(Furnaces/Foundries)
21	Non Ferrous metal making (Brass, Lead, Aluminium, Bronze, GM etc)
22	Ferrous metal processing (Forging, Rolling, Drawing etc)
23	Non Ferrous metal processing (drawing, cupping, Rolling etc)
24	Chemical & Surface treatment (Phosphating, Electroplating, Pickling etc)
25	Acid Manufacturing
26	Acid Concentration
27	Manufacture of Chemical(other than Explosive)
28	Manufacture of High Energy Materials (Explosive etc)
29	Cleaning & Bleaching of Cotton & Textile
30	Leather Processing

OUTTURN WORK ORDER

Work Order Code Serial No	Details of Service
40	Manufacture of components for Except Orders
41	Mfg of PPL Items
51	Expenditure in respect of National Cadet Corps Organisation
70	Inter Factory Services
80	Payment Issue to Private Civil Indentors
81	Payment Issue to members of permanent Establishment
82	Payment Issue to all Central Govt Departments like Railways, P&T, Civil Aviation, Ministry of Shipping and Transport etc(excluding MHA)
83	Payment Issue for all State Govt and Union Territories (Excluding State Police)
84	Payment Services for all Foreign Govts (Exports)
85	Payment Services for Air Force
86	Payment Services for Navy
87	Payment Services to the R&D Organisation (DRDO)
88	Payment Services to the Inspection Organisations under DGQA, DGNAI, DGAQA etc.
89	Payment services for MES
90	Payment services for Army
91	Issue of Article for presentation purposes to the Ministry of Defence. Should not be operated for issue of articles for exhibition for which 01/00035/00 exists

Work Order Code Serial No	Details of Service
92	Payment Services to other Defence Deptt other than Army, Navy, Air Force, MES, DRDO, DGQA, DGNAI, DGAQA.
93	Payment Services to Ministry of Home Affairs (MHA) Including Services to CRPF, BSF, ITBF, SSB, Assam Rifles, NSG, CISF
94	Payment Services to the Public Sector Undertakings (Centre and State) like IOC, HAL, GRSE etc and Autonomous Bodies, like Himalayan Mountaineering Institute, D.V.C etc
96	Booking of all issues to State Police including State Police of Union Territories.

SYLLABUS OF WORK ORDERS

INDIRECT EXPENDITURE – FIXED CHARGES (01 SERIES)

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/00001/00	Clerical and other staff including Telephone Operators, Checkers, MTS etc.	Pay and Allowances should be booked to this Work order.
01/00004/00	Gazetted Officers and N.G.Os	Pay and Allowances including DA, HRA and TA paid to GOs & NGOs should be booked to this Work order.
01/00005/00	Police, Gate Keepers, Watchmen including Factory Defence	Pay & Allowances of Security Officers, DSC staff, Darwans etc. should be charged to this W.O.
01/00006/00	(i) Inspection Charges (ii) Supervisors & (iii) Godown Keepers	(i) All expenditures including pay and allowances of all categories of supervisory staff incurred in connection with works inspection (including testing and proofing of material) should be booked under this work order. (ii) Pay & Allowances of Supervisors which cannot be booked to any particular Service Work order will only be booked under this Work order. (iii) Pay & Allowances of Godown Keepers employed in Section other than Store Section.
01/00007/00	Misc Store Adjustment including losses(beyond control) to be Kept Out of Production.	Stores scrapped due to obsolescence and change in process of manufacturing etc. Loss due to revaluation of Stocks. Auctions' commission, loss on sale of stores and loss of stores in transit should be booked under this work order with suitable control codes. These expenses will be Kept Out of Production .

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/00008/00	Drawing & Design Office.	All expenditure excepting Pay & Allowances in respect of Drawing & Design Office, which cannot be allocated to any other outturn work order will be booked to this Work Order.
01/00011/00	Idle Time beyond Control	<p>Payment of Idle Time pay including D.A due to following reasons should be booked to this work order:</p> <ol style="list-style-type: none"> 1. Payment of Idle Time to I.E.s due to Fire, Flood or Earthquake. 2. High atmospheric Humidity hindering certain operations in Explosives / Filling Factories or Unfavourable Weather Conditions for Specialised optical Works depending on Sunlight. 3. Payment of IEs Declared Surplus but retained (This Would however require Govt. sanction) 4. Failure of Power Supply from Outside sources 5. Time spent by IEs in attending meetings of Works committee or for attending Departmental Court of Enquiry. 6. Time spent by I.E.s in attending camp parade or Training in Territorial Army, Home Guards Duty. 7. Payment of workmen for giving evidence in a Court of Law on behalf of Govt. and attending Court as Jurors. 8. Payment of Idle Time to I.E.s under notice of discharge when their wages cannot be debited to production.

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
		<p>N.B.</p> <p>a) Payment of idle time should be made with reference to sanction of competent authority.</p> <p>b) Expenditure under this Work order should be Kept Out of Production.</p>
01/00013/00	Superannuation Charges.	Gratuity paid to IEs & NIEs should also be booked to this Work order.
01/10013/00	Govt. contribution to New Pension Scheme.	Self-Explanatory
01/00014/00	<p>I. Training in India other than Ord Fys.</p> <p>II. Training of apprentices under Act and other national scheme undertaken by Ord Fys.</p>	<p>I. All expenditure including fees, pay and allowances for the training period, TA/DA of Officers, Staff and Workmen detailed for training in India other than Ordnance Factories should be booked to this work order and Kept Out of Production.</p> <p>II. All expenditure in labour and material including proportionate pay and allowances of industrial staff for training of apprentices under Act and other National Schemes undertaken by Ordnance Factories should be booked to this Work order and Kept Out of Production since these schemes are more for National purposes than of Ord Factories.</p>
01/00015/00	Maintenance of Railway sidings.	

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/00016/00	i. Repairs to Electric Installations and ii. Minor Alteration to Wiring and Removal and Re-erection of Telephones & Telephone Mains.	i. Extracts will be necessary for all major repairs in labour and material. Repairs of electric installations involving total replacement should be capitalised. ii. Will also include expenditure pertaining to the maintenance to telephone and minor alteration to wiring.
01/00017/00	Maintenance of Buildings, Roads etc. including repair to Electric fitting such as lights, fans, radiators etc. which form integral part of building.	All Expenditure on building, roads etc. of a maintenance nature, not chargeable to capital viz. establishment, tools, audit, rates and taxes etc. should be booked to this work order.
01/00018/00	Depreciation Charges on Capital Assets other than Buildings & Machinery.	Residual value of discarded assets and of capital assets transferred out of the OF should also be booked here.
01/00019/00	Depreciation Charges – Building.	Residual value of discarded assets and of capital assets transferred out of the OF should also be booked here
01/00020/00	Hospitals located in Factory Estate (not dispensaries) including hygiene cell & anti-malaria measure.	Pay and Allowances of permanent and temporary staff employed in hospital, cost of medicines and other incidental charges incurred for the hospital will be booked to this work order. In case of Fy. Hospitals rendering services to more than one Fy, the proportionate share has to be transferred to service receiving Fy. Expenditure thus transferred to be shown against indirect work order 01/10141/00 (In order to identify hospital cost of other Fys, the identification mark '1' is required to be used at the third digit of work order 01/00141/00).

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/10020/00	Factory Dispensaries.	The cost of Factory Dispensaries includes the expenditure, which are factory-specific facility and are required to be maintained as per provisions of Factories Act.
01/00021/00	Factory Canteen.	All expenditure incurred by the Factory Canteen run departmentally will be booked to this Work order.
01/00022/00	Labour Welfare Fund.	Amounts of Govt. contributions to labour welfare fund should be booked to this Work order.
01/00023/00	I. Conservancy, Road lighting & Maintenance and II. Estate Revenue and Expenditure.	I. Expenditure on such items both inside the factory and outside in the estate should be booked to this work order. The cost of power supplied to sewage disposal plant should be booked to this work order. II. The expenditure incurred with a view to realising usufruct of the Estate should be booked to this work order.
01/00123/00	Receipts accruing from the Factory Estate.	All receipts accruing from Factory Estate will be credited to this Work order.
01/10023/00	Cost of Utilities (Electricity, Fuel, Steam, Gas etc) not attributable directly to the production including generation, distribution, maintenance repairs etc.	Also includes all expenditure except Pay & Allowances of Supervisory Staff.
01/10123/00	Recovery Cost Electric energy, Gas and water etc. supplied and power and water used for lighting, water supply.	The amount recoverable will be booked to this work order. Cost of Power, Water etc. transferred to and from indirect orders under which they are shown as expenditure and to direct order should be credited to this work order.

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/00024/00	Factory School.	All expenditure in connection with the Factory School in the shape of pay of teachers, peons etc. cost of books and prizes etc. should be booked to this work order.
01/00125/00	Rates, rents & Taxes recovered from occupants of factory quarter.	Rents, Rates & Taxes recoverable from the occupants of factory quarters whether in cash or on proforma cost basis will be booked to this work order.
01/00026/00	Services for OFB HQrs, Accounts offices, the PCA(Fys).	Expenditure incurred by the Factories for DGOFF/PCA(Fys), Accounts Offices.
01/00027/00	Central Administration for Factories, OFB.	All expenditure relating to OFB should be booked to this Work order.
01/00028/00	Central Administration for Accounts, i.e. of PCA(Fys).	All expenditure relevant to PCA(Fys) Office will be booked to this work order.
01/00029/00	Factory Branch Accounts Office.	Cost of services rendered for own factory Branch Accounts Office will be booked to this head.
01/00030/00	<p>I. Care & Custody of Stock.</p> <p>II. Miscellaneous Stores Adjustment including losses (within control) chargeable to production.</p>	<p>I. Includes pay of I.E.s employed in Store Section. Material expended in cleaning and preserving stock should also be booked to this work order. Pay & Allowances of NIEs including Godown Keepers employed for care and custody of stock should also be booked to this to WO.</p> <p>II. Deficiencies in actual balance, deterioration due to defective storage, adjustment on account of Unorthodox balances.</p>

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/00131/00	Misc Credit Adjustment including profit on sale of store.	Surplus at stock taking and gain on conditioning of stores, surplus found in stock taking of finished and unfinished articles in shop. Recovery of loss in transit and profit on sale of stores to be booked under this work order. The amount booked to this work order is to be Kept Out of Production.
01/00032/00	Misc Adjustment.	Preliminary expenses brought forward from previous years for debiting to cost of production for the current year should be booked to this work order through allocation sheets.
01/00033/00	Office Furniture & Contingencies.	To include all labour and material expended in making or repairing articles for office use and all articles drawn from stock for the same purpose. Articles purchased, cost of which is debited to contingent grants should neither be brought on store charge nor debited to this work order but debited to work order 01/00037/00. Articles made on or drawn to this work order which are of an expensive and / or quasi permanent character, should be accounted for in an inventory list.
01/00034/00	Depreciation of machinery under Capital Grant & RR Grant.	This Work order would reflect depreciation on machines capitalised from both NC & RR Funds.
01/00035/00	Manufacture, upkeep and supply of samples, patterns etc to other factories, departments and outsiders.	All expenditure related to supply of samples and incidentals to the supply to exhibition should also be booked to this work order. Samples are to be issued on loan and return thereof watched.

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
01/70037/00	Expenditure on Contract Labour deployed on Indirect / Non Production Jobs.	01/70037/00 will denote expenses on Contract Labour engaged in work other than Production [(810/08) out of I&M Grant].
01/00038/00	Stationery, Printing and Binding.	All Forms/Stationery to be drawn under this Work order.
01/00039/00	Miscellaneous indirect services rendered by other Factories and Formations.	This Work order will be operated upon by Accounts Office receiving the service from other Factories when no other Work order for the particular service exists.
01/10039/00	Hospital Cost received from other Fys.	In the accounts of Service receiving factories proportionate levy of Hospital Charge would be accounted for as Cost data on account of service received from other factories and to be shown against this W.O (to identify Hospital Cost mark '1' is used at the third digit of Work order).
01/00140/00	I. Unclaimed Wages Lapsed. II. Misc Adjustment. III. Misc Receipts.	I. Lapsed deferred pay of all categories of employees should also be booked to this Work order. II. Cost of Capital assets other than machines transferred to other Military Formations should also be booked to this Work order. III. Self Explanatory.
01/00141/00	Misc. indirect services for other Factories / Formations.	This Work order will be operated by the Accounts Office of the Factory incurring expenditure of an indirect nature debit to other Factories and Formations e.g.: 1. Proportionate cost of medical establishment incurred by one Factory on behalf of another Factory; 2. Proportionate charges of Medical

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
		<p>Officers incurred by one Factory on behalf of another Factory.</p> <ol style="list-style-type: none"> 3. Proportionate share of Technical School. 4. Proportionate share of fire fighting expenses incurred by one Factory on behalf another Factory. 5. Share of Estate of Expenditure debit to Inspection Section. Share of rent debit to Inspection section. 6. Proportionate cost of drugs and dressing to Inspection Section. Proportionate cost of drugs and dressing supplied to another Factory and other Misc. Charges will also be adjusted against this W.O
01/10141/00	Hospital Service for other Factories.	Proportionate share of Hospital expenses has to be transferred to Service receiving Factory(s) annually by the Br AO of the Factory in whose Principal Ledger total expenditure has been posted. Expenditure thus transferred to be booked to this Work order.
01/20141/00	R&D, ODC Contra Credit.	Total Expenditure booked to Cost Work order 01/00057/00 during a month will be relieved by Contra Crediting to this Work Order.
01/00042/00	Misc Equipment & Movable Shop fittings.	<p>Includes articles of a non-expendable nature of quasi-permanent type such as loose plants, racks, benches, cupboards, hand carts etc. Repairs to Misc. equipment and shop fittings are also chargeable to this Work order. Movable fittings, benches etc. drawn for use in the Estate are chargeable to the Work order for the Estate.</p> <p>(Refer indicative list in the appendix)</p>
01/10042/00	Internal Transport & weighing machines.	Includes articles of non-expendable nature of quasi permanent type in respect of internal transport such as trucks etc. Replacement of

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
		weighing machines in inventory list to be charged to this Work order.
01/00043/00	Conversion of break-up of article borne on stock charge.	<p>Articles requiring conversion should be drawn through nominal demand note. The cost of conversion etc. will be debited to this work order and on completion of conversion etc., the articles should be returned on Nominal Return Notes. Materials/Stores to be broken up will first be conditioned and then drawn against this work order on Nominal Demand Note.</p> <p>Cost of breaking will be charged to this Work order and the produce sent back to store on Nominal Return Notes. Break up of packages covering Cordite and Fuzes should also be booked to this Work order. Conversion of old metal into pig should be done against process Work orders.</p>
01/00044/00	Preliminary Expenses	<p>All expenditure in connection with planning and modernisation of an existing Factory or new Project should be booked to the respective Work orders and subsequently transferred to this Work order by affording corresponding Credit to Work order 01/00154/00 or 02/00122/00 as the case may be. The expenditure so transferred should be Kept Out of Production for that year. When any preliminary expenditures accumulated are required to be charged to Production in subsequent years, this should be made by allocating the expenditure to Work order 01/00032/00.</p>
01/00045/00	Share of R & D / ODC Expenditure debitable to	This Work order will be operated by all the OFs with or without having an earmarked

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
	Factory.	ODC. The material and labour required for R&D purpose is booked in this Work order. The amount of share of expenditure for ODCs will be intimated by PCA(Fys) which is booked by the OFs with earmarked ODCs in the 01/00057/00. Such amount will also be booked by the OFs without having an ODC in this Work order.
01/00046/00	<p>I. Care & Custody of Surplus stock, emergency reserve, stock-pile items. Care & Custody of Stores & Plant during the period between its declaration for disposal & preparation & removing of old redundant machines for sale.</p> <p>II. Loss of Stock pile items.</p>	<p>I. Control code 1,2,3,4,5 may be used in first place of the main W.O for surplus stock, emergency store, stock pile items, stores cleared for disposal & preparation & removal of old redundant machines for sale. The expenditure will be Kept Out of Production.</p> <p>II. Loss of stock pile will also include loss arising out of transfer to other <u>Formations</u>. The amount should be Kept Out of Production.</p>
01/00047/00	Misc. Allowances granted to I.Es less amount charged direct	Allowances which can not be booked to any Work order in (01) series should be booked to this W.O. Special Pay if any paid in addition to normal PW/DW earnings that cannot be booked to any Work order should be booked to this W.O.

02/00127/00	Credits from Trial Run.	If the results / outputs of trial runs can be put to use, the credits to be taken in this work order.

SYLLABUS OF WORK ORDERS

PROCESS MATERIAL

The Work Orders for Process Materials (03 Series) will not exist henceforth, the expenditure for such processes will be booked in Work Orders as enumerated below. The accounting process will be the same as existing presently for transferring cost to the final outturn work orders. Foundry Statement, Metal Statement, Process & Issue (P&I) or any other statement being generated presently for accounting of the processes will continue.

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
20/XXXXX/YY	Iron & Steel making (furnaces/foundries)	<p>XXXXX – will denote the serial number of the work order as considered fit by the OF for the sub processes for the generic process work order</p> <p>YY – will denote the section code.</p> <p>Note :- If felt necessary by the individual Ordnance Factories that these 11 new series do not cover all the processes undertaken by them, reference/approval should be obtained from PCA(Fys) Kolkata for opening of a new series of work order.</p>
21/XXXXX/YY	Non Ferrous metal making (Brass, lead, aluminium, Bronze, GM etc.)	
22/XXXXX/YY	Ferrous metal processing (forging, rolling, drawing etc.)	
23/XXXXX/YY	Non-ferrous metal processing (drawing, cupping, rolling etc.)	
24/XXXXX/YY	Chemical & Surface treatment (phosphating, electroplating, pickling etc.)	
25/XXXXX/YY	Acid Manufacturing	
26/XXXXX/YY	Acid Concentration	
27/XXXXX/YY	Manufacture of Chemical (other than explosive)	
28/XXXXX/YY	Manufacture of high energy materials (Explosive etc.)	
29/XXXXX/YY	Cleaning & bleaching of Cotton & Textile	
30/XXXXX/YY	Leather Processing	

SYLLABUS OF WORK ORDERS

CAPITAL SERVICES (04 SERIES)

No expenditure in this section can be incurred without an extract and all applications for extracts must be accompanied by an estimated cost. Expenditure in excess of estimate when such excess is over 5% should be covered by additional allotment of funds and the estimated cost shown on extract or sanctioned should also be increased. Additions and alterations to the capital assets of minor nature in labour and material should be charged to Work Order no. 02/00016/00. Erection and foundation cost in labour and material, if indicated in the relevant extract or in the sanction, should be charged to the capital work order concerned.

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
04/00001/00	I. Manufacture of Machinery & furnaces. II. Major Modifications, Addition & Repairs to Machinery.	I. Includes construction of furnaces and similar plants II. For minor modifications & additions see remarks against Work order 02/00016/00
04/00004/00	Erection and foundation of new machinery	<p>The erection and foundations of machinery of minor nature in labour and material, if NOT indicated in the relevant extract or in the sanction should be charged to "Revenue" through Work order 02/00016/00.</p> <p>The erection and foundations of machinery, if indicated in the relevant extract or in the sanction, should be charged to this work order.</p> <p>The foundation cost will be capitalised when the cost of the machine itself is capitalised.</p> <p>The cost of erection and foundation will continue to be recovered and depreciated in Factory Accounts along with the corresponding machine cost in Block Register.</p> <p>Erection of furnaces and similar plant is included in cost of construction and chargeable to W.O 04/00001/00.</p>

WORK ORDER	DESCRIPTION OF WORK ORDER	REMARKS
04/00005/00	Capital works in connection with buildings authorised to be incurred departmentally by factories.	Addition to buildings such as Hydraulic and Steam Mains, Water Tanks, centralised AC machines etc. should be charged to this order.
04/00013/00	Erection of Electric fire alarm apparatus.	
04/00014/00	Installation of Telephone Exchange in the Factory, Branch Accounts Offices and Inspectorates etc.	All new internal installations and extensions as also renewals and replacements thereof should be charged to this work order. Some labour and material may be required for installations which should also be booked in this work order.
04/00015/00	<ul style="list-style-type: none"> i. Electrical installations, additions and alterations thereto. ii. Heavy repairs to electric installations involving for the replacement. 	Minor repairs to electric installations other than heavy repairs and additions & alterations should be booked to 01/00016/00 or 01/00017/00 as the case may be.
04/00018/00	Fixtures and Fittings and accessories of capital nature.	The fixtures & fittings of high value and long life may be booked in this work order.

Appendix

SYLLABUS OF WORK ORDERS

Typical list of articles which are to be charged to WORK ORDER 01/00042/00. Miscellaneous Equipment are listed below. To include moveable shop, fittings, furniture, etc. and such items as those mentioned below, it is understood that office furniture is a charge to WORK ORDER 01/00033/00.

Barrows	Lamps, electric
Batteries, portable, for testing purposes.	Lamps, oil
Benches	Mats
Boxes	Micrometer gauges
Burners, incandescent	Pyrometers
Chairs	Racks
Chests	Salinometers
Clocks	Speedometers.
